SHLUCHA SPOTLIGHT

FEATURING....!

Rochel Mandel!!!

Hey! I'm Rochel Mandel. I live in Fort Worth Texas, where everyone is always friendly!

I am 12 years old, and in G6 ET.

If you are wondering, I do online school in my bedroom, and this is my 5th year doing it!

If I were to be a teacher in online school when I get older I would want to teach Navi Shmuel Aleph. Maybe when I get older I can invent something new for S.O.S. - like a pair of headphones that blocks OUT all the noise around me except for what's on the computer. I wish someone would do that for me though while I'm still in online school!

I am on community shlichus like many of you. I love socializing with the people I meet. The one thing that I especially love about being a shlucha is that I can influence all the people around me to do good things.

My Sister

My hebrew school

I have 6 sisters, and 1 brother to help me and my family on our Shlichus.

If you want to know what kind of candy I like just go to a kosher store and ask for something called chocolate. You will see shelves and shelves; I like them all!

This is a funny story that my father tells me a lot. It happened when I was seven. I was in school, and it was around pesach time. We had to draw pictures of the four sons that come to our pesach seder. For the wise man I drew a talmid chacham, for the simple man I drew a plain person, for the evil man I drew Paroh, and for the one that does not know how to ask I drew two little kids fighting over a toy!!!

I always like talking to the different people in my Chabad House and making them feel at home.

I really feel that this is my own special talent that I use on my Shlichus!
