

SHLUCHIM ONLINE SCHOOL CHESHVAN UPDATE

חודש חשוון תש"פ

MEET THE MORAHS!

Interview with Morah Peshy Raitport

Where are you from? Caracas, Venezuela. The city is quite dangerous, we can't leave the house except to cross the street and to go to Shul. All our food and supplies are imported illegally. My family was brought down by the Shul to have a Shochet, Mohel, and Mashgiach on site. Since the community here is anti-religious, the programming that we do in our house is 'undercover'. For example, we host a baking class and while the dough is rising we teach the women about Yiddishkeit.

You were in Online School as a student. What's it like coming back as a teacher? Very interesting! I started Online School in 3rd grade. It was one girl at a time on webcam and now it is so much more advanced with the programming. It's also so nice to be able to relate to the girls from personal experience.

What is your favorite part of Online School?

Seeing how so many different girls from different lifestyles and places of Shlichus come together as a class with true Ahavas Yisroel. The girls' friendship run so deep and they're so accepting of each other as they each share a connection of being in a similar situation.

Bnos Chabad Update!

The Shluchos in Online School have been working really hard over Tishrei to "Live with the Rebbe"! Watching videos, going on Mivtzoim, and helping out in their Chabad house; they were entered into so many raffles with awesome prizes! This month, Cheshvan we are beginning to discover how sweet it is to be in Dor HaShvii! Working up to our delicious MikdashBlox Raffle, we are completing missions in two areas: Connecting to the Rebbe and Conquering the World! By connecting first, we ensure that we will each receive that "extra special-never before-Dor HaShvii". So much is happening, check out pics on the website!
