

Lieba of New Hampshire

Hanover, New Hampshire

Hi my name is Lieba Gray I'm 14 years old and in 8th grade and I'm on Shlichus in Hanover New Hampshire. My Shlichus is student based on a campus so every Friday night Shabbos day we have a Shabbos meals for them. Something about our campus is that were very small Jewish population about 400 Jews. Pesach is where we get the most students which is about 100 students come to the Seder.

Since I live in a place where there's is not a lot of Jews there's no Jewish day school for about 2 hours away in Boston so of course I come to SOS in the summer and winter it's a really beautiful and calm place to live.

A story that actually happened to my parents is that there was a guy and his wife was having a baby she talked to my parents about maybe being Jewish but she wasn't sure so she and her husband had talked with my parents and my father did some research and found out that her great grandmother was Jewish so when she had her baby boy they made a small bris and they she was really excited that she was Jewish and her kids would be Jewish.

I really like SOS because its a school that I have right on my computer and I could get up and not have to go on a bus everyday etc. also I really think its cool that there's real teachers and real students in the room. I started online school the first year i could so about 9-10 years and really enjoyed the years I've been on. The closest Lubavitch school is 2 hours away from me in Boston.
